

Finding an Author's H-Index

1. Click on the following link:
<http://apps.isiknowledge.com/OutboundService.do?action=go&mode=afService&SID=4D29go55jNbkJf7E2&product=WOS>
2. Enter author's first and last name, as well as middle initial.
3. If multiple variations of the author's name appears, click on the appropriate option(s).
4. Click the "finish now" button.
5. When the list of publications screen appears, click the small link labeled "create citation report" – the results, including h-index, should appear.
6. If you run into any trouble, please click the ["Ask a Librarian"](#) link.
